Juan Luis Burgos

juanlb1988@gmail.com || (254)-449-6995

Education

Bachelor of Science, Texas A&M University, May 2013
Majors: Computer Engineering and Applied Mathematical Science
Overall GPA: 3.63 / 4.00

Technical Skills

Familiar with Windows, MacOS, and Linux operating systems.
Experience programming in C/C++, Java, Ruby, Python, Lua, Shell, LATEX.

Relevant Experience

Staff Software Engineer	**IBM Corporation**	**August 2016 - Present**
	Durham, NC	

- Developing IBM Cloud Monitoring capabilities for Instana observability and application monitoring.
- Developing a dockerized micro-service that manages per tenant configurations.
- Worked with international team to integrate data-analytics functionality into the IBM Cloud Pak for Multicloud Management performance monitoring product.
- Worked with APMSaaS DevOps and Infrastructure teams to resolve customer issues, perform infrastructure migrations, and apply PSIRT patches, etc.
- Supported multiple backend Ruby on Rails endpoints, maintenance of Apache and Haproxy servers, and inter-service integrations for SaaS products.
- Implemented Lua-based Haproxy plugins for several backend infrastructures supporting SaaS products.

Backend Engineer	**IBM Corporation**	**July 2014 - August 2016**
	Durham, NC	

- Lead Ruby on Rails developer on our backend endpoint that manages the creation, modification, and destruction of SaaS subscriptions and integration with other services.
- Implemented Ruby gem that provided per-process performance monitoring for Ruby on Rails applications for the Application Performance Monitoring on SaaS product.
- Implemented backend scripts in Ruby, Perl, and Bash that supported E2E SaaS subscription life-cycle flows.
- Implemented web interface providing users with monitoring agent, configuration package, and development tool download capability.
- Supported infrastructure team in the introduction of new API flows.
- Assisted SaaS Operations team during product releases.

Software Engineer	**IBM Corporation**	**July 2013 - July 2014**
	Durham, NC	

- Designed and developed a new Ruby on Rails agent for the Application Performance Monitoring on SaaS product.
- Daily interaction with global test teams to address bug reports and new feature requests.
- Assisted in the development of other monitoring agents (i.e. MongoDB, PHP).

Undergraduate Researcher	**Texas A&M University**	**June 2010 - May 2013**
	College Station, TX	

- Conducted research in the area of Sampling Based Motion Planning (SBMP) under the guidance of Dr. Nancy Amato.
- Worked on multiple research papers and completed senior research thesis as part of my B.S. Computer Engineering degree plan.
- Attended multiple research seminars and a Computing conference in Washington D.C.

| **Matlab Tutor** | **Texas A&M University** | **January 2009 - May 2011** |
| | **College Station, TX** | |

- Directly tutored both individual students and large groups on concepts ranging from Single to Multi-Variate Calculus, Differential Equations, and Linear Algebra using Matlab and MapleSoft programming languages.

| **SEE Math Camp Counselor** | **Texas A&M University** | **June 2009, 2010, 2011** |
| | **College Station, TX** | |

- Mentored middle school students in their exploration of the world of mathematics through group activities and MapleSoft programming at annual math-oriented summer camp held by the Texas A&M Department of Mathematics.

Honors and Memberships

Undergraduate Research Fellows Honors, 2013
Engineering Scholar Honors, 2013
University Honors, 2013
Cum Laude Honors, 2013
Upsilon Pi Epsilon Membership, 2013
Dean's List, 2008 - 2013
Distinguished Student Award, 2010
Pi Mu Epsilon Membership, 2009
Title of Computer Science Ambassador, 2008 - 2009 & 2010 - 2012
Student Engineers' Council, 2008 - 2011
